

The Complete Library Automation Software

LIBRARIAN[®]
Library Management Software

LIBRARIAN® is a next generation LMS designed for small to large libraries. **LIBRARIAN®** uses established thoughtfully created design and development principles. It showcases library's individual strengths, while freeing staff from routine functions. This **.net** - based solution uses Web and **MS-Windows®** client software to offer an array of services and features.

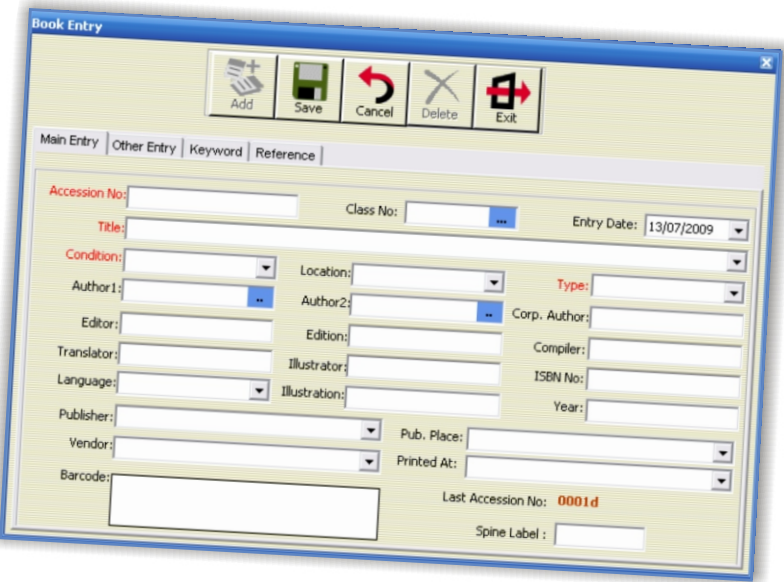

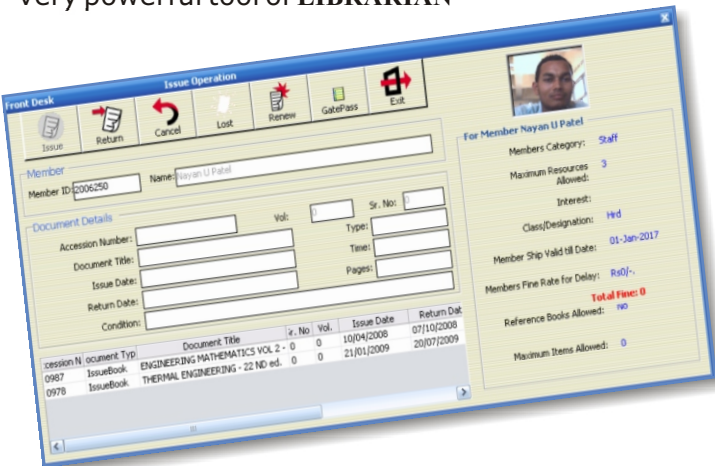

Powerful Multilingual Support based on UNICODE :

LIBRARIAN® allows users to store and retrieve record in any language available globally using the advanced **UNICODE** technology. The support of phonetic keyboard enables users to input data in the local language using easy to use keyboard.

Powerful Resource Management :

Over & above managing library resources like Books, Journals, Articles, CDs, DVDs, Cassettes, Films etc., **LIBRARIAN®** - an advance Library Automation & Management Software from **CR2**, can also manage resources like Documents, Technical Drawings, Maps, Annual Reports, Standards, Permits, Licenses, Agreements, Contracts, Tenders, Physical Assets etc. One can also create different list of resources by using Category Master. Creation of Digital Archive is a very powerful tool of **LIBRARIAN®**

Chosen by all sizes and types of libraries :

Over 750+ Libraries, spreaded across various domains, have chosen **LIBRARIAN®**.

Libraries choose **LIBRARIAN®** because it features :-

Esteemed Clientele :

About CR2 :

The total working experience of the group is more than 100 man years. To synergize the domain knowledge of Education & Healthcare sector with IT technology, **CR2** has developed many ready-to-use & off-the-shelf software products. These products have been very well accepted by Universities, Colleges, Schools, Industries, R & D Institutes, Corporate etc.

CR2 works closely with HP and Microsoft using their latest tools. Further to increase the easy penetration of the product and services, **CR2** uses 'UNICODE' technology in content creation to make them available in vernacular languages for the general masses. The group expertise lies in creation of Resource Centre using eLearning technology where maximum learning resources are to be converted into e-form by way of digitization & data conversion.

CR2 is also in the field of creation of KNOWLEDGE PORTAL & ONE STOP EDUCATION PORTAL
