Employee Life Cycle

- Dashboard & MIS
- Decision Support System with real time Reports
- Effective Governance
- Growth & Impact Analysis

Customised Solution

- Expert Analysis
- Process Mapping
- Effective Implementation
- Dedicated Support
- Enterprise Expert Solution

About CR2

The total working experience of the group is more than 300 man years. To synergize the domain knowledge of Education & Healthcare sector with IT technology, CR2 has developed many ready-to-use & off-the-shelf software products. These products have been very well accepted by Universities, Colleges, Schools, R & D institutions, Industries Corporate, Govt. Depts. etc.

e-Governance of these organizations is very important to create a Smart & Knowledge based digital society. The group's expertise lies in creation of Resource Centre using e-Learning technology where maximum learning resources are needed to be converted into e-format.

CR2 is a member of NASSCOM and is ISO 9001:2015 certified. CR2 works closely with HP and Microsoft using their latest tools. Further to increase the easy penetration of the product and services, CR2 uses 'UNICODE' technology in content creation to make them available in vernacular languages for the general masses.

CR2 is the first Software Products Company of India having more than 20 Ready-to-Use & Off-the-Shelf software products for different application areas, which are all its own branded & copyrighted products.

Business Partner
